IWACIII2025 Call for Papers/Proposals

The 9th International Workshop on Advanced Computational Intelligence and Intelligent Informatics
Zhuhai, China, Oct 31-Nov 4, 2025

The 9th International Workshop on Advanced Computational Intelligence and Intelligent Informatics (IWACIII 2025) is sponsored by **International Association for Computational Intelligence (IACA)**, **Beijing Association of Automation** and **AIRE, Chinese Society of Educational Development Strategy**, and organized by **Beijing Institute of Technology** (Zhuhai) and **YGSOFT INC**. This international conference provides a forum for scientists and engineers over the world to present their theoretical results and techniques in the field of computational intelligence and intelligent informatics, especially large modes. The conference proceedings containing accepted full papers will be published by **Springer** as *Communications in Computer and Information Science* (CCIS) proceedings and submitted to EI Compendex & Scopus for indexing. Selected papers with major modifications can be also recommended to the special issue of JACIII (**Journal of Advanced Computational Intelligence and Intelligent Informatics**, ESCI/SCOPUS/EI indexed). And **special sessions** will be organized to inspire *AI education insights*, *project roadshows* and *contests* for teachers, students or researchers. Taking this opportunity, we sincerely welcome our colleagues worldwide to join us for this workshop. Please visit the conference website http://iwaciii.bit.edu.cn/ or https://conferences.koushare.com/iwaciii2025 for further information. Please visit https://cms.amss.ac.cn and enter *IWACIII2025 author center* to submit your papers/propsals. Registered participants can join **IACA** without member fee.

Technical topics of IWACIII2025 include but are not limited to:

Neural Networks	Fuzzy Systems	Evolutionary Computing	Emotion Computing`	Soft Computing	Large Language Models
Artificial Intelligence	Machine Learning	Deep Learning	Reinforce Learning	Multi-agent Systems	Multimodal Fusion
Adaptive Systems	Data Mining	Data Fusion	Intelligent Systems	Network Security	Embodied Intelligence
Signal and Image Processing	Control Theory and Applications	Motion Control	Intelligent Control	Network-based Control	Humanoid Robots
Human-Computer Interface	Robotics	Mechatronics	Integrated Circuits	Unmanned Ssystems	Applications of AI

Paper Submission and Special Sessions

All manuscripts must be submitted electronically in PDF format before the deadline. The paper template in LaTeX or Word can be downloaded from website of Springer https://www.springer.com/gp/computer-science/lncs/conference-proceedings-guidelines. A full paper or extended abstract should be submitted via https://cms.amss.ac.cn (refered to CMS below) which is an online conference management system. *Please submit your paper abstract with title at your earliest convenience and update your paper/abstract before the deadline*. Only English manuscripts are acceptable for **full paper** submission, while **extended abstracts** can be either in English or in Chinese or in Japanese.

Besides full papers and extended abstracts, submissions of the following types in English, Chinese or Japanese are also welcome, which should also be submitted via the CMS. *Please submit your ideas at your earliest convenience and update your information before the deadline*.

1) **Proposals of special sessions** are welcome. *To organize a special session, in which 5-8 papers should be invited, just submit your ideas in the CMS*.
2) **Business proposals** in Chinese or English are also welcome for roadshows, which will be organized as a special event to promote new technologies.
3) **A contest on AI in games,** *see http://we-learn.net.cn/bit-igca-wiki/ for game rules,* will also be organized as a special event for students/researchers.

See the conference website for more details on the AI contest and the submission of papers, extended abstracts, session proposals or business proposals.
